## Independent Auditors' Report

No. GA113 0182 CAS OS

The Stockholders, Boards of Commissioners and Directors  
PT. Cardig Aero Services Tbk and its subsidiaries

We have audited the accompanying consolidated statements of financial position of PT. Cardig Aero Services Tbk and its subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of comprehensive income, consolidated statements of changes in equity, and consolidated statements of cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of PT. Cipta Anugrah Sarana Catering, PT. Cardig Anugra Sarana Bersama and PT. Purantara Mitra Angkasa Dua (consolidated subsidiaries), which statements reflect total assets constituting 16.94% and 13.86%, respectively, of consolidated total assets as of December 31, 2012 and 2011 and total revenues constituting 20.72% and 11.37%, respectively of consolidated total revenues for the years then ended. Those statements were audited by other independent auditors whose reports, with unqualified opinion, have been furnished to us, and our opinion, insofar as it relates to the amounts included for those subsidiaries, is based solely on the reports of the other independent auditors. The consolidated statement of financial position of PT. Cardig Aero Services Tbk and its subsidiaries as of December 31, 2010/January 1, 2011, before the adjustments to give retroactive effect to a restructuring transaction among entities under common control as discussed in Note 5 to the consolidated financial statements, were audited by other independent auditors whose report, dated March 5, 2011, expressed an unqualified opinion on such statement.

We conducted our audits in accordance with auditing standards established by the Indonesian Institute of Certified Public Accountants. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits and the report of the other independent auditors provide a reasonable basis for our opinion.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee, and its network of member firms, each of which is a legally separate and independent entity. Please see [www.deloitte.com/about](http://www.deloitte.com/about) for a detailed description of the legal structure of Deloitte Touche Tohmatsu Limited and its member firms.

Menurut pendapat kami, berdasarkan audit kami dan laporan auditor independen lain, laporan keuangan konsolidasian yang kami sebut di atas menyajikan secara wajar, dalam semua hal yang material, posisi keuangan PT. Cardig Aero Services Tbk dan entitas anak tanggal 31 Desember 2012 dan 2011, dan hasil usaha, serta arus kas untuk tahun-tahun yang berakhir pada tanggal tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Kami juga telah mengaudit penyesuaian atas laporan keuangan konsolidasian tahun 2010 dan laporan posisi keuangan konsolidasian pada tanggal 1 Januari 2011/31 Desember 2010 untuk menyajikan transaksi akuisisi PT. Purantara Mitra Angkasa Dua secara retroaktif, seperti dijelaskan dalam Catatan 5 atas laporan keuangan konsolidasian. Menurut pendapat kami, penyesuaian tersebut wajar dan telah diterapkan dengan semestinya. Namun, kami tidak melakukan audit, review atau prosedur apapun atas laporan keuangan Perusahaan dan entitas anak periode sebelumnya tersebut selain atas penyesuaian retrospektif, dan karenanya kami tidak menyatakan pendapat atau memberikan keyakinan dalam bentuk apapun atas laporan keuangan periode tersebut secara keseluruhan.

Audit kami dilaksanakan dengan tujuan untuk menyatakan pendapat atas laporan keuangan konsolidasian pokok secara keseluruhan. Informasi tambahan terlampir disajikan untuk tujuan analisis tambahan terhadap laporan keuangan konsolidasian pokok dan bukan ditujukan untuk menyajikan posisi keuangan, hasil usaha, dan arus kas entitas induk secara individu, serta bukan merupakan bagian yang diharuskan dari laporan keuangan konsolidasian. Informasi tambahan tersebut adalah tanggung jawab manajemen Perusahaan. Informasi tambahan tersebut telah menjadi objek prosedur audit yang kami terapkan dalam audit atas laporan keuangan konsolidasian pokok, dan, menurut pendapat kami, disajikan secara wajar, dalam semua hal yang material, berkaitan dengan laporan keuangan konsolidasian pokok secara keseluruhan.

In our opinion, based on our audits and the reports of the other independent auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of PT. Cardig Aero Services Tbk and its subsidiaries as of December 31, 2012 and 2011, and the results of their operations and their cash flows for the years then ended in conformity with Indonesian Financial Accounting Standards.

We have also audited the adjustments to the opening consolidated statement of financial position at January 1, 2011/December 31, 2010 to give retroactive effect to the acquisition of PT. Purantara Mitra Angkasa Dua, as discussed in Note 5 to the consolidated financial statements. In our opinion, such retrospective adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review or apply any procedures to such prior period financial statement of the Company and its subsidiaries other than with respect to the retrospective adjustments and, accordingly, we do not express an opinion or any other form of assurance on such prior period financial statement taken as a whole.

Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The accompanying supplementary information is presented for the purpose of additional analysis of the basic consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the parent as individual company, and is not a required part of the consolidated financial statements. Such supplementary information is the responsibility of the Company's management. Such information has been subjected to the auditing procedures applied in our audits of the basic consolidated financial statements and, in our opinion, is fairly stated, in all material respects when considered, in relation to the basic consolidated financial statements taken as a whole.

**3. IKHTISAR KEBIJAKAN AKUNTANSI PENTING**

**a. Pernyataan Kepatuhan**

Laporan keuangan konsolidasian disusun sesuai dengan Standar Akuntansi Keuangan di Indonesia.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**a. Statement of Compliance**

The consolidated financial statements have been prepared in accordance with Indonesian Financial Accounting Standards. These financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and reporting practices generally accepted in other countries and jurisdictions.

**b. Penyajian Laporan Keuangan Konsolidasian**

Dasar penyusunan laporan keuangan konsolidasian, kecuali untuk laporan arus kas konsolidasian adalah dasar akrual. Mata uang pelaporan yang digunakan untuk penyusunan laporan keuangan konsolidasi adalah mata uang Rupiah (Rp), dan laporan keuangan konsolidasian tersebut disusun berdasarkan nilai historis, kecuali beberapa akun tertentu disusun berdasarkan pengukuran lain sebagaimana diuraikan dalam kebijakan akuntansi masing-masing akun tersebut.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan pengelompokan arus kas dalam aktivitas operasi, investasi dan pendanaan.

**b. Consolidated Financial Statement Presentation**

The consolidated financial statements, except for the consolidated statements of cash flows, are prepared under the accrual basis of accounting. The presentation currency used in the preparation of the consolidated financial statements is the Indonesian Rupiah (Rp), while the measurement basis is the historical cost, except for certain accounts which are measured on the basis described in the related accounting policies.

The consolidated statements of cash flows are prepared using the direct method with classifications of cash flows into operating, investing and financing activities.

**c. Prinsip Konsolidasian**

Laporan keuangan konsolidasian menggabungkan laporan keuangan Perusahaan dan entitas yang dikendalikan oleh Perusahaan (entitas anak). Pengendalian dianggap ada apabila Perusahaan mempunyai hak untuk mengatur kebijakan keuangan dan operasional suatu entitas untuk memperoleh manfaat dari aktivitasnya.

Penghasilan dan beban entitas anak yang diakuisisi atau penjualan selama tahun berjalan termasuk dalam laporan laba rugi komprehensif konsolidasian sejak tanggal efektif akuisisi dan sampai dengan tanggal efektif penjualan.

Jika diperlukan, penyesuaian dapat dilakukan terhadap laporan keuangan entitas anak agar kebijakan akuntansi yang digunakan sesuai dengan kebijakan akuntansi yang digunakan oleh Grup.

Kepentingan nonpengendali pada entitas anak diidentifikasi secara terpisah dan disajikan dalam ekuitas. Kepentingan nonpengendali pemegang saham mungkin awalnya diukur pada nilai wajar atau pada bagian pemilikan kepentingan nonpengendali dari nilai wajar aset bersih yang dapat diidentifikasi dari pihak yang diakuisisi. Pilihan pengukuran dilakukan pada akuisisi dengan dasar akuisisi. Setelah akuisisi, jumlah tercatat kepentingan nonpengendali adalah jumlah kepemilikan pada pengakuan awal ditambah bagian kepentingan nonpengendali dari perubahan selanjutnya dalam ekuitas. Jumlah pendapatan komprehensif entitas anak tersebut diatribusikan kepada pemilik Perusahaan dan pada kepentingan nonpengendali bahkan jika hal ini mengakibatkan kepentingan nonpengendali mempunyai saldo defisit.

Perubahan dalam bagian kepemilikan Grup pada entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Nilai tercatat kepentingan Grup dan kepentingan nonpengendali disesuaikan untuk mencerminkan perubahan bagian kepemilikannya atas entitas anak. Setiap perbedaan antara jumlah kepentingan nonpengendali disesuaikan dan nilai wajar imbalan yang diberikan atau diterima diakui secara langsung dalam ekuitas dan diatribusikan pada pemilik entitas induk.

**c. Principles of Consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

When necessary, adjustments were made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

Non-controlling interests in subsidiaries are identified separately and presented within equity. The interest of non-controlling shareholders maybe initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net asset. The choice of measurement is made on acquisition by acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus non-controlling interests' share of subsequent changes in equity. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having deficit balance.

Changes in the Group's interests in existing subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Ketika Grup kehilangan pengendalian atas entitas anak, keuntungan dan kerugian diakui didalam laba rugi dan dihitung sebagai perbedaan antara (i) keseluruhan nilai wajar yang diterima dan nilai wajar dari setiap sisa investasi dan (ii) nilai tercatat sebelumnya dari aset (termasuk goodwill) dan liabilitas dari entitas anak dan setiap kepentingan nonpengendali. Ketika aset dari entitas anak dinyatakan sebesar nilai revaluasi atau nilai wajar dan akumulasi keuntungan atau kerugian yang telah diakui sebagai pendapatan komprehensif lainnya dan terakumulasi dalam ekuitas, jumlah yang sebelumnya diakui sebagai pendapatan komprehensif lainnya dan akumulasi ekuitas dicatat seolah-olah Grup telah melepas secara langsung aset yang relevan (yaitu direklasifikasi ke laba rugi atau ditransfer langsung ke saldo laba sebagaimana ditentukan oleh PSAK yang berlaku). Nilai wajar setiap sisa investasi pada entitas anak terdahulu pada tanggal hilangnya pengendalian dianggap sebagai nilai wajar pada saat pengakuan awal aset keuangan sesuai dengan PSAK 55 (revisi 2011), Instrumen Keuangan: Pengakuan dan Pengukuran atau, jika sesuai, biaya perolehan saat pengakuan awal investasi pada entitas asosiasi atau pengendalian bersama entitas.

**d. Kombinasi Bisnis Pengendalian yang Sama**

Kombinasi bisnis atas perusahaan yang berada dibawah pengendalian yang sama merupakan transaksi restrukturisasi entitas sepengendali. Aset dan liabilitas yang pemilikannya dialihkan dicatat sesuai dengan nilai buku seperti kombinasi bisnis berdasarkan metode penyatuan kepemilikan. Selisih antara biaya perolehan dan bagian aset dan liabilitas entitas anak yang disajikan dalam transaksi restrukturisasi antara entitas sepengendali dibukukan dalam akun "Selisih Nilai Transaksi Restrukturisasi Entitas Sepengendali" dan disajikan sebagai unsur ekuitas.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. When assets of the subsidiary are carried at revalued amount or fair values and the related cumulative gain or loss has been recognized in other comprehensive income and accumulated in equity, the amounts previously recognized in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the relevant assets (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable accounting standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under PSAK 55 (revised 2011), Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or a jointly controlled entity.

**d. Common Control Business Combinations**

Merger of entities under common control is a restructuring transaction between entities under common control. Assets and liabilities transferred were recorded at net book value, similar to merger accounted for using pooling of interests method. The difference between the acquisition cost and the Company's interest in subsidiaries' assets and liabilities that are transferred in restructuring transaction of entities under common control is recorded in account "Difference in value of restructuring transaction between entities under common control" and presented as part of equity.

**e. Transaksi dan Penjabaran Laporan Keuangan Dalam Mata Uang Asing**

Pembukuan masing-masing entitas di Grup diselenggarakan dalam mata uang Rupiah, mata uang utama lingkungan ekonomi dimana entitas beroperasi (mata uang fungsional). Transaksi-transaksi selama tahun berjalan dalam mata uang asing dicatat dengan kurs yang berlaku pada saat terjadinya transaksi. Pada tanggal pelaporan, aset dan liabilitas moneter dalam mata uang asing disesuaikan untuk mencerminkan kurs yang berlaku pada tanggal tersebut. Keuntungan atau kerugian kurs yang timbul dikreditkan atau dibebankan dalam laporan laba rugi.

**f. Transaksi Pihak Berelasi**

Pihak-pihak berelasi adalah orang atau entitas yang terkait dengan Grup (entitas pelapor):

**e. Foreign Currency Transactions and Translation**

Transactions during the year involving foreign currencies are recorded at the rates of exchange prevailing at the time the transactions are made. At reporting date, monetary assets and liabilities denominated in foreign currencies are adjusted to reflect the rates of exchange prevailing at that date. The resulting gains or losses are credited or charged to profit or loss.

**f. Transactions with Related Parties**

A related party is a person or entity that is related to the Group (the reporting entity):

- a. A person or a close member of that person's family is related to a reporting entity if that person:

#### **g. Aset Keuangan**

Seluruh aset keuangan diakui dan dihentikan pengakuannya pada tanggal diperdagangkan di mana pembelian dan penjualan aset keuangan berdasarkan kontrak yang mensyaratkan penyerahan aset keuangan dalam kurun waktu yang ditetapkan oleh kebiasaan pasar yang berlaku, dan awalnya diukur sebesar nilai wajar ditambah biaya transaksi, kecuali untuk aset keuangan yang diukur pada nilai wajar melalui laporan laba rugi, yang awalnya diukur sebesar nilai wajar.

Aset keuangan Grup diklasifikasikan sebagai pinjaman diberikan dan piutang dan nilai wajar melalui laba rugi (yaitu derivatif seperti yang dijelaskan di Catatan 3j).

- iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- v. The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
- vi. The entity is controlled or jointly controlled by a person identified in (a).
- vii. A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

All transactions with related parties, whether or not made at similar terms and conditions as those done with third parties, are disclosed in the consolidated financial statements.

#### **g. Financial Assets**

All financial assets are recognised and derecognised on trade date where the purchase or sale of a financial asset is under a contract whose terms requires delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

The Group's financial assets are classified as loans and receivables and at fair value through profit or loss (i.e., derivatives discussed in Note 3j).

#### **Pinjaman diberikan dan piutang**

Kas dan setara kas, piutang usaha, piutang lain-lain dan pinjaman kepada pihak berelasi dengan pembayaran tetap atau telah ditentukan dan tidak mempunyai kuotasi di pasar aktif diklasifikasi sebagai "pinjaman diberikan dan piutang", yang diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif dikurangi penurunan nilai. Bunga diakui dengan menggunakan metode suku bunga efektif, kecuali piutang jangka pendek di mana pengakuan bunga tidak material.

#### **Metode suku bunga efektif**

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari instrumen keuangan dan metode untuk mengalokasikan pendapatan bunga selama periode yang relevan. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi penerimaan kas di masa datang (mencakup seluruh komisi dan bentuk lain yang dibayarkan dan diterima yang merupakan bagian tak terpisahkan dari suku bunga efektif, biaya transaksi dan premium dan diskonto lainnya) selama perkiraan umur instrumen keuangan, atau, jika lebih tepat, digunakan periode yang lebih singkat untuk memperoleh nilai tercatat bersih dari aset keuangan pada saat pengakuan awal.

Pendapatan diakui berdasarkan suku bunga efektif.

#### **Penurunan nilai aset keuangan**

Pinjaman diberikan dan piutang, dievaluasi terhadap indikator penurunan nilai pada setiap tanggal pelaporan. Aset keuangan diturunkan nilainya bila terdapat bukti obyektif, sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset keuangan, dan peristiwa yang merugikan tersebut berdampak pada estimasi arus kas masa depan atas aset keuangan yang dapat diestimasi secara handal.

Bukti obyektif penurunan nilai termasuk sebagai berikut:

- kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam; atau
- pelanggaran kontrak, seperti terjadinya wanprestasi atau tunggakan pembayaran pokok atau bunga; atau

#### **Loans and receivables**

Cash and cash equivalents, trade accounts receivables, other receivables and loans to a related party that have fixed or determinable payments that are not quoted in an active market are classified as "loans and receivables". Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term receivables when the recognition of interest would be immaterial.

#### **Effective interest method**

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis.

#### **Impairment of financial assets**

Loans and receivables are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or

- terdapat kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan.

Pinjaman diberikan dan piutang yang dinilai tidak akan diturunkan secara individual akan dievaluasi penurunan secara kolektif. Bukti obyektif dari penurunan nilai portofolio piutang dapat termasuk pengalaman Grup atas tertagihnya piutang di masa lalu, peningkatan keterlambatan penerimaan pembayaran piutang dari rata-rata periode kredit, dan juga pengamatan atas perubahan kondisi ekonomi nasional atau lokal yang berkorelasi dengan *default* atas piutang.

Jumlah kerugian penurunan nilai merupakan selisih antara nilai tercatat aset keuangan dengan nilai kini dari estimasi arus kas masa datang yang didiskontokan menggunakan tingkat suku bunga efektif awal dari aset keuangan.

Nilai tercatat pinjaman yang diberikan dan piutang tersebut dikurangi dengan kerugian penurunan nilai melalui penggunaan akun penyisihan piutang. Jika piutang tidak tertagih, piutang tersebut dihapuskan melalui akun penyisihan piutang. Pemulihan kemudian dari jumlah yang sebelumnya telah dihapuskan dikreditkan terhadap akun penyisihan. Perubahan nilai tercatat akun penyisihan piutang diakui dalam laba atau rugi.

Jika pada periode berikutnya, jumlah penurunan nilai berkurang dan penurunan dapat dikaitkan secara obyektif dengan sebuah peristiwa yang terjadi setelah penurunan nilai tersebut diakui, kerugian penurunan nilai yang sebelumnya diakui dipulihkan melalui laporan laba rugi hingga nilai tercatat investasi pada tanggal pemulihan penurunan nilai tidak melebihi biaya perolehan diamortisasi sebelum pengakuan kerugian penurunan nilai dilakukan.

- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

Loans and receivables that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

The amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the loans and receivables is reduced by the impairment loss through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

#### **Penghentian pengakuan aset keuangan**

Grup menghentikan pengakuan aset keuangan jika dan hanya jika hak kontraktual atas arus kas yang berasal dari aset berakhir, atau Grup mentransfer aset keuangan dan secara substansial mentransfer seluruh risiko dan manfaat atas kepemilikan aset kepada entitas lain. Jika Grup tidak mentransfer serta tidak memiliki secara substansial atas seluruh risiko dan manfaat kepemilikan serta masih mengendalikan aset yang ditransfer, maka Grup mengakui keterlibatan berkelanjutan atas aset yang ditransfer dan liabilitas terkait sebesar jumlah yang mungkin harus dibayar. Jika Grup memiliki secara substansial seluruh risiko dan manfaat kepemilikan aset keuangan yang ditransfer, Grup masih mengakui aset keuangan dan juga mengakui pinjaman yang dijamin sebesar pinjaman yang diterima.

#### **h. Liabilitas Keuangan dan Instrumen Ekuitas**

##### **Klasifikasi sebagai liabilitas atau ekuitas**

Liabilitas keuangan dan instrumen ekuitas yang diterbitkan oleh Grup diklasifikasi sesuai dengan substansi perjanjian kontraktual dan definisi liabilitas keuangan dan instrumen ekuitas.

##### **Instrumen ekuitas**

Instrumen ekuitas adalah setiap kontrak yang memberikan hak residual atas aset Entitas setelah dikurangi dengan seluruh liabilitasnya. Instrumen ekuitas yang diterbitkan oleh Grup dicatat sebesar hasil penerimaan bersih setelah dikurangi biaya penerbitan langsung.

##### **Liabilitas keuangan**

Liabilities keuangan pada nilai wajar melalui laba rugi (FVTPL)

Derivatif keuangan diklasifikasikan pada FVTPL kecuali derivative keuangan tersebut ditetapkan dan memenuhi syarat sebagai akuntansi lindung nilai. Kebijakan akuntansi untuk derivatif keuangan dijelaskan di Catatan 3j.

#### **Derecognition of financial assets**

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when the Group transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continue to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralised borrowing for the proceeds received.

#### **h. Financial Liabilities and Equity Instruments**

##### **Classification as debt or equity**

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

##### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by Group are recorded at the proceeds received, net of direct issue costs.

##### **Financial liabilities**

Financial liabilities at fair value through profit or loss (FVTPL)

Financial derivatives are classified as at FVTPL unless they are designated and qualified as accounting hedge. Related accounting policy for financial derivatives is discussed in Note 3j.

Liabilitas keuangan pada biaya diamortisasi

Utang usaha dan utang lain-lain, serta pinjaman bank pada awalnya diukur pada nilai wajar, setelah dikurangi biaya transaksi, dan selanjutnya diukur pada biaya perolehan yang diamortisasi dengan menggunakan metode bunga efektif, dengan beban bunga diakui berdasarkan metode suku bunga efektif.

**Penghentian pengakuan liabilitas keuangan**

Grup menghentikan pengakuan liabilitas keuangan, jika dan hanya jika, liabilitas Grup dan entitas anak telah dilepaskan, dibatalkan atau kadaluarsa.

**i. Saling hapus antar Aset Keuangan dan Liabilitas Keuangan**

Aset dan liabilitas keuangan Grup saling hapus dan nilai bersihnya disajikan dalam laporan posisi keuangan jika dan hanya jika:

- saat ini memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut; dan
- berniat untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

**j. Instrumen keuangan derivatif**

Grup menggunakan instrumen keuangan untuk mengelola risiko eksposur atas suku bunga dan tingkat perubahan nilai tukar mata uang asing. Penggunaan derivatif lebih rinci diungkapkan pada Catatan 35.

Derivatif awalnya diakui pada nilai wajar saat kontrak dilakukan dan sesudahnya diukur pada nilai wajarnya pada setiap tanggal neraca. Perubahan nilai wajarnya atas derivatif dilakukan sebagai lindung nilai ekonomi terhadap risiko eksposur nilai tukar mata uang asing, langsung diakui dalam laba rugi. Derivatif dicatat sebagai aset apabila nilai wajarnya positif, jika sebaliknya derivatif dicatat sebagai liabilitas.

Untuk derivatif yang ditujukan dan efektif sebagai instrumen lindung nilai, waktu pengakuan di laba atau rugi tergantung pada sifat dari hubungan lindung nilai.

Financial liabilities at amortized cost

Trade and other payables and bank borrowings are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method, with interest expense recognised on an effective yield basis.

**Derecognition of financial liabilities**

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

**i. Netting of Financial Assets and Financial Liabilities**

The Group only offsets financial assets and liabilities and presents the net amount in the statement of financial position where it:

- currently has a legal enforceable right to set off the recognized amount; and
- intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

**j. Derivative financial instruments**

The Group uses derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risk. Further details on the use of derivatives are disclosed in Note 35.

Derivatives are initially recognized at fair value at the date the derivative contract is entered into and are subsequently measured to their fair value at each reporting date. Changes in fair values of derivatives entered into as economic hedge of exposure against foreign exchange rate risks, are recognized immediately in earnings. These derivatives are carried as assets if the fair value is positive, otherwise derivatives are carried as liabilities.

For derivatives designated and effective as a hedging instrument, the timing of the recognition in profit or loss is dependent on the nature of the hedge relationship.

Suatu derivatif disajikan sebagai aset tidak lancar atau kewajiban tidak lancar jika sisa jatuh tempo dari instrumen lebih dari 12 bulan dan tidak diharapkan akan direalisasi atau diselesaikan dalam jangka waktu 12 (dua belas) bulan. Derivatif lainnya disajikan sebagai aset atau kewajiban lancar.

#### **Akuntansi Lindung Nilai**

Grup menunjuk derivatif tertentu sebagai arus kas lindung nilai.

Pada awal hubungan lindung nilai yang terkait, entitas mencatat hubungan antara instrumen lindung nilai dan yang dilindungi, bersama dengan tujuan manajemen risiko dan strategi untuk melakukan berbagai macam transaksi lindung nilai. Selanjutnya, pada awal hubungan lindung nilai dan seterusnya, Grup mendokumentasikan apakah instrumen lindung nilai sangat efektif dalam menghapuskan perubahan arus kas yang dilindungi.

Bagian yang efektif atas perubahan nilai wajar derivatif yang ditujukan dan memenuhi syarat sebagai lindung nilai diakui di laba rugi komprehensif lainnya. Laba atau rugi yang berhubungan dengan bagian yang tidak efektif diakui langsung di laporan laba rugi, dan dicatat di akun laba atau rugi lainnya.

Jumlah yang sebelumnya diakui di laba rugi komprehensif dan terakumulasi di ekuitas direklasifikasi ke laporan laba rugi di periode ketika lindung nilai diakui di laba rugi, di akun yang sama di laporan laba rugi komprehensif sebagai lindung nilai. Meskipun demikian, ketika transaksi perkiraan yang dilindung nilai mengakibatkan diakuinya aset nonkeuangan atau liabilitas nonkeuangan, laba dan rugi yang sebelumnya terakumulasi di ekuitas ditransfer dari ekuitas dan dicatat di pengukuran awal atas biaya aset nonkeuangan atau liabilitas nonkeuangan.

Akuntansi lindung nilai dihentikan ketika Grup memutuskan hubungan lindung nilai, ketika instrumen lindung nilai kadaluarsa atau dijual, diakhiri, atau dieksekusi, atau tidak lagi sebagai akuntansi lindung nilai. Laba atau rugi terakumulasi di ekuitas pada saat tersebut tetap tercatat di ekuitas dan diakui ketika transaksi perkiraan akhirnya diakui di laporan laba rugi. Ketika transaksi perkiraan tidak lagi diharapkan akan terjadi, laba atau rugi terakumulasi di ekuitas diakui langsung di laporan laba rugi.

A derivative is presented as non-current asset or non-current liability if the remaining maturity of the instrument is more than 12 months and is not expected to be realized or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

#### **Hedge Accounting**

The Group designates certain derivatives as cash flow hedges.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in cash flows of the hedged item.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss, and is included in the "other gains and losses" line item.

Amounts previously recognized in other comprehensive income and accumulated in equity are reclassified to profit or loss in the periods when the hedged item is recognized in profit or loss, in the same line of the statement of comprehensive income as the recognized hedged item. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously accumulated in equity are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or it no longer qualifies for hedge accounting. Any gain or loss accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in profit or loss.

Penggunaan derivatif keuangan ini diatur dengan kebijakan Grup yang disetujui oleh Direksi dan Dewan Komisaris, yang menjelaskan kebijakan penggunaan derivatif keuangan secara tertulis.

The use of financial derivatives is governed by the Group's policies approved by Directors and the Board of Commissioners, which provide written policies on the use of financial derivatives.

**l. Persediaan**

Persediaan dinyatakan berdasarkan biaya perolehan atau nilai realisasi bersih, mana yang lebih endah. Biaya perolehan ditentukan dengan metode rata-rata tertimbang.

**l. Inventories**

Inventories are stated at cost or net realizable value, whichever is lower. Cost is determined using the moving average method.

**m. Biaya Dibayar Di muka**

Biaya dibayar di muka diamortisasi selama masa manfaat masing-masing biaya dengan menggunakan metode garis lurus.

**m. Prepaid Expenses**

Prepaid expenses are amortized over their beneficial periods using the straight-line method.

**n. Aset Tetap – Kepemilikan Langsung**

Aset tetap yang dimiliki untuk digunakan dalam produksi atau penyediaan barang atau jasa atau untuk tujuan administratif dicatat berdasarkan biaya perolehan setelah dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai.

**n. Property and Equipment – Direct Acquisition**

Property and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated at cost, less accumulated depreciation and any accumulated impairment losses.

Penyusutan diakui sebagai penghapusan biaya perolehan aset dikurangi nilai residu dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomis aset tetap sebagai berikut:

Depreciation is recognized so as to write-off the cost of assets less residual values using the straight-line method based on the estimated useful lives of the assets as follows:

|                                            | <u>Tahun/Years</u> |                                      |
|--------------------------------------------|--------------------|--------------------------------------|
| Bangunan dan renovasi bangunan yang disewa | 4 - 20             | Buildings and leasehold improvements |

| Peralatan operasi                          | 4 - 8              | Operations equipment                 |
| Peralatan dan perabot kantor               | 4 - 8              | Office furniture and equipment       |
| Kendaraan bermotor                         | 4                  | Motor vehicles                       |

Aset sewa pembiayaan disusutkan berdasarkan taksiran masa manfaat ekonomis yang sama dengan aset yang dimiliki sendiri atau disusutkan selama jangka waktu yang lebih pendek antara periode masa sewa dan umur manfaatnya.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or where shorter, the term of the relevant lease.

Masa manfaat ekonomis, nilai residu dan metode penyusutan direview setiap akhir tahun dan pengaruh dari setiap perubahan estimasi tersebut berlaku prospektif.

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

Tanah dinyatakan berdasarkan biaya perolehan dan tidak disusutkan.

Land is stated at cost and is not depreciated.

Beban pemeliharaan dan perbaikan dibebankan pada laporan laba rugi komprehensif konsolidasian pada saat terjadinya. Biaya-biaya lain yang terjadi selanjutnya yang timbul untuk menambah, mengganti atau memperbaiki aset tetap dicatat sebagai biaya perolehan aset jika dan hanya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke entitas dan biaya perolehan aset dapat diukur secara andal. Aset tetap yang sudah tidak digunakan lagi atau yang dijual, dikeluarkan dari kelompok aset tetap berikut akumulasi penyusutannya. Keuntungan atau kerugian dari penjualan aset tetap tersebut dibukukan dalam laporan laba rugi konsolidasian pada periode yang bersangkutan.

The cost of maintenance and repairs is charged to consolidated statement of comprehensive income as incurred. Other costs incurred subsequently to add to, replace part of, or service an item of property and equipment, are recognized as asset if, and only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. When assets are retired or otherwise disposed of, their carrying amount is removed from the accounts and any resulting gain or loss is reflected in the current profit or loss.

Aset dalam penyelesaian dinyatakan sebesar biaya perolehan dan akan dipindahkan ke masing-masing aset tetap yang bersangkutan pada saat selesai dan siap digunakan.

Construction in progress is stated at cost and transferred to the respective property and equipment account when completed and ready for use.

**o. Sewa**

**o. Leases**

Sewa diklasifikasikan sebagai sewa pembiayaan jika sewa tersebut mengalihkan secara substantial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset. Sewa lainnya, yang tidak memenuhi kriteria tersebut, diklasifikasikan sebagai sewa operasi.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

**Sebagai Lessee**

**The Group as lessee**

Pembayaran sewa operasi diakui sebagai beban dengan dasar garis lurus (*straight-line basis*) selama masa sewa, kecuali terdapat dasar sistematis lain yang dapat lebih mencerminkan pola waktu dari manfaat aset yang dinikmati pengguna. Rental kontijen diakui sebagai beban di dalam periode terjadinya.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

Dalam hal insentif diperoleh dalam sewa operasi, insentif tersebut diakui sebagai liabilitas. Keseluruhan manfaat dari insentif diakui sebagai pengurangan dari biaya sewa dengan dasar garis lurus kecuali terdapat dasar sistematis lain yang lebih mencerminkan pola waktu dari manfaat yang dinikmati pengguna.

**p. Provisi**

Provisi diakui ketika Grup memiliki kewajiban kini (baik bersifat hukum maupun konstruktif) sebagai akibat peristiwa masa lalu, kemungkinan besar Grup diharuskan menyelesaikan kewajiban dan estimasi andal mengenai jumlah kewajiban tersebut dapat dibuat.

Jumlah yang diakui sebagai provisi merupakan estimasi terbaik dari pertimbangan yang diperlukan untuk menyelesaikan kewajiban kini pada akhir periode pelaporan, dengan mempertimbangkan risiko dan ketidakpastian yang meliputi kewajibannya. Apabila suatu provisi diukur menggunakan arus kas yang diperkirakan untuk menyelesaikan kewajiban kini, maka nilai tercatatnya adalah nilai kini dari arus kas.

Ketika beberapa atau seluruh manfaat ekonomi untuk penyelesaian provisi yang diharapkan dapat dipulihkan dari pihak ketiga, piutang diakui sebagai aset apabila terdapat kepastian bahwa penggantian akan diterima dan jumlah piutang dapat diukur secara andal.

**q. Goodwill**

Goodwill yang timbul dari kombinasi bisnis diakui sebagai aset pada tanggal diperolehnya pengendalian (tanggal akuisisi). Goodwill diukur sebagai selisih dari imbalan yang dialihkan, jumlah setiap kepentingan nonpengendali pihak yang diakuisisi dan nilai wajar dari kepentingan ekuitas yang sebelumnya dimiliki pihak pengakuisisi pada pihak yang diakuisisi (jika ada) atas jumlah selisih bersih dari aset teridentifikasi yang diperoleh dan liabilitas yang diambil alih pada tanggal akuisisi.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

**p. Provisions**

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

**q. Goodwill**

Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

Jika setelah penilaian kembali, kepemilikan Grup pada nilai wajar aset bersih yang teridentifikasi dari pihak yang diakuisisi melebihi dari imbalan yang dialihkan, jumlah setiap kepentingan nonpengendali pihak yang diakuisisi dan nilai wajar dari kepentingan ekuitas yang sebelumnya dimiliki pihak pengakuisisi pada pihak yang diakuisisi (jika ada), selisihnya diakui segera dalam laba atau rugi sebagai pembelian dengan diskon.

Untuk tujuan uji penurunan nilai, goodwill dialokasikan pada setiap unit penghasil kas dari Grup yang diharapkan memberikan manfaat dari sinergi kombinasi bisnis tersebut. Unit penghasil kas yang telah memperoleh alokasi goodwill diuji penurunan nilainya secara tahunan, dan ketika terdapat indikasi bahwa unit tersebut mengalami penurunan nilai. Jika jumlah terpulihkan dari unit penghasil kas kurang dari jumlah tercatatnya, rugi penurunan nilai dialokasikan pertamam untuk mengurangi jumlah tercatat aset atas setiap goodwill yang dialokasikan pada unit dan selanjutnya ke aset lainnya dari unit dibagi prorata atas dasar jumlah tercatat setiap aset dalam unit tersebut. Rugi penurunan nilai yang diakui atas goodwill tidak dapat dibalik pada periode berikutnya.

Pada pelepasan entitas anak, jumlah yang dapat diatribusikan dari goodwill termasuk dalam penentuan laba atau rugi atas pelepasan.

**r. Penurunan Nilai Aset Nonkeuangan Selain Goodwill**

Pada setiap akhir periode pelaporan, Grup menelaah nilai tercatat aset non-keuangan untuk menentukan apakah terdapat indikasi bahwa aset tersebut telah mengalami penurunan nilai. Jika terdapat indikasi tersebut, nilai yang dapat diperoleh kembali dari aset diestimasi untuk menentukan tingkat kerugian penurunan nilai (jika ada). Bila tidak memungkinkan untuk mengestimasi nilai yang dapat diperoleh kembali atas suatu aset individu, Grup mengestimasi nilai yang dapat diperoleh kembali dari unit penghasil kas atas aset.

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in a subsequent period.

On disposal of the subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

**r. Impairment of Non-Financial Assets Except Goodwill**

At the end of each reporting dates, the Group reviews the carrying amount of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Perkiraan jumlah yang dapat diperoleh kembali adalah nilai tertinggi antara nilai wajar dikurangi biaya penjualan atau nilai pakai. Jika jumlah yang dapat diperoleh kembali dari aset non-keuangan (unit penghasil kas) kurang dari nilai tercatatnya, nilai tercatat aset (unit penghasil kas) dikurangi menjadi sebesar nilai yang dapat diperoleh kembali dan rugi penurunan nilai diakui langsung ke laba rugi.

Kebijakan akuntansi untuk penurunan nilai aset keuangan dijelaskan dalam Catatan 3g.

**s. Pengakuan Pendapatan dan Beban**

**Pendapatan Jasa**

Pendapatan dari kontrak atas penyediaan jasa diakui pada saat jasa diserahkan dengan mengacu pada perjanjian yang mendasari.

**Penjualan Barang**

Pendapatan dari penjualan barang harus diakui bila seluruh kondisi berikut dipenuhi:

- Grup telah memindahkan risiko secara signifikan dan memindahkan manfaat kepemilikan barang kepada pembeli;
- Grup tidak lagi mengelola atau melakukan pengendalian efektif atas barang yang dijual;
- Jumlah pendapatan tersebut dapat diukur dengan andal;
- Besar kemungkinan manfaat ekonomi yang dihubungkan dengan transaksi akan mengalir kepada Grup tersebut; dan
- Biaya yang terjadi atau akan terjadi sehubungan transaksi penjualan tersebut dapat diukur dengan andal.

**Penghasilan bunga**

Penghasilan bunga diakui berdasarkan waktu terjadinya dengan acuan jumlah pokok terutang dan tingkat bunga yang berlaku.

**Beban**

Beban diakui pada saat terjadinya.

Estimated recoverable amount is the higher of fair value less cost to sell or value in use. If the recoverable amount of a non-financial asset (cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized immediately against earnings.

Accounting policy for impairment of financial assets is discussed in Note 3g.

**s. Revenue and Expense Recognition**

**Rendering of Services**

Revenue from agreements to provide services is recognized when service is rendered by reference to the underlying arrangements.

**Sale of Goods**

Revenue from sales of goods is recognized when all of the following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- The cost incurred or to be incurred in respect of the transaction can be measured reliably.

**Interest income**

Interest income is accrued on time basis, by reference to the principal outstanding and at the applicable interest rate.

**Expenses**

Expenses are recognized when incurred.

**t. Imbalan kerja**

**Imbalan pasca kerja**

Perhitungan imbalan pasca kerja ditentukan dengan menggunakan metode Projected Unit Credit. Akumulasi keuntungan dan kerugian aktuarial bersih yang belum diakui yang melebihi jumlah yang lebih besar diantara 10% dari nilai kini imbalan pasti dan nilai wajar aset program diakui dengan metode garis lurus selama rata-rata sisa masa kerja yang diperkirakan dari para pekerja dalam program tersebut. Biaya jasa lalu dibebankan langsung apabila imbalan tersebut menjadi hak atau vested, dan sebaliknya akan diakui sebagai beban dengan metode garis lurus selama periode rata-rata sampai imbalan tersebut menjadi vested.

Jumlah yang diakui sebagai liabilitas imbalan pasca kerja di laporan posisi keuangan merupakan yang lebih rendah dari (i) nilai kini liabilitas imbalan pasti disesuaikan dengan keuntungan dan kerugian aktuarial yang belum diakui, biaya jasa lalu yang belum diakui, dan nilai wajar aset program atau (ii) jumlah kerugian aktuarial dan biaya jasa lalu belum diakui, ditambah dengan nilai kini dari manfaat ekonomis yang tersedia dalam bentuk pengembalian dana dari program pensiun atau pengurangan iuran masa datang.

**Imbalan Kerja Jangka Panjang Lainnya**

Perhitungan imbalan kerja jangka panjang lainnya ditentukan dengan menggunakan metode *Projected Unit Credit*. Biaya jasa lalu dan keuntungan (kerugian) aktuarial diakui langsung pada laba atau rugi.

Jumlah yang diakui sebagai liabilitas untuk imbalan kerja jangka panjang lainnya di laporan posisi keuangan konsolidasian adalah nilai kini liabilitas imbalan pasti.

**u. Pajak Penghasilan**

Beban pajak kini ditentukan berdasarkan laba kena pajak dalam periode yang bersangkutan yang dihitung berdasarkan tarif pajak yang berlaku.

**t. Employment Benefits**

**Post-employment benefits**

The cost of providing post employment benefits is determined using the Projected Unit Credit Method. The accumulated unrecognized actuarial gains and losses that exceed 10% of the greater of the present value of the Company's defined benefit obligations and the fair value of plan assets are recognized on a straight-line basis over the expected average remaining working lives of the participating employees. Past service cost is recognized immediately to the extent that the benefits are already vested, and otherwise is amortized on a straight-line basis over the average period until the benefits become vested.

The benefits obligation recognized in the statements of financial position is the lower of (i) the present value of the defined benefit obligation, as adjusted for unrecognized actuarial gains and losses and unrecognized past service cost, and as reduced by the fair value of scheme assets or (ii) the aggregate of unrecognized actuarial losses and past service cost, plus the present value of available refunds and reduction in future contribution to the plan.

**Other Long-term Benefits**

The cost of providing long-term benefits is determined using the Projected Unit Credit Method. Past service cost and actuarial gains (losses) are recognized immediately to profit or loss.

The long-term employee benefits obligation recognized in the consolidated statements of financial position represents the present value of the defined benefit obligation.

**u. Income Tax**

Current tax expense is determined based on the taxable income for the year computed using prevailing tax rates.

Aset dan liabilitas pajak tangguhan diakui atas konsekuensi pajak periode mendatang yang timbul dari perbedaan jumlah tercatat aset dan liabilitas menurut laporan keuangan dengan dasar pengenaan pajak aset dan liabilitas. Liabilitas pajak tangguhan diakui untuk semua perbedaan temporer kena pajak dan aset pajak tangguhan diakui untuk perbedaan temporer yang boleh dikurangkan, sepanjang besar kemungkinan dapat dimanfaatkan untuk mengurangi laba kena pajak pada masa datang.

Aset dan liabilitas pajak tangguhan diukur dengan menggunakan tarif pajak yang diekspektasikan berlaku dalam periode ketika liabilitas diselesaikan atau aset dipulihkan dengan tarif pajak (dan peraturan pajak) yang telah berlaku atau secara substantif telah berlaku pada akhir periode pelaporan.

Pengukuran aset dan liabilitas pajak tangguhan mencerminkan konsekuensi pajak yang sesuai dengan cara Grup ekspektasikan, pada akhir periode pelaporan, untuk memulihkan atau menyelesaikan jumlah tercatat aset dan liabilitasnya.

Jumlah tercatat aset pajak tangguhan dikaji ulang pada akhir periode pelaporan dan dikurangi jumlah tercatatnya jika kemungkinan besar laba kena pajak tidak lagi tersedia dalam jumlah yang memadai untuk mengkompensasikan sebagian atau seluruh aset pajak tangguhan tersebut.

Aset dan liabilitas pajak tangguhan saling hapus ketika entitas memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus aset pajak kini terhadap liabilitas pajak kini dan ketika aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan yang sama serta Grup yang berbeda yang bermaksud untuk memulihkan aset dan liabilitas pajak kini dengan dasar neto.

Pajak kini dan pajak tangguhan diakui sebagai beban atau penghasilan dalam laba atau rugi, kecuali sepanjang pajak penghasilan yang berasal dari transaksi atau kejadian yang diakui, diluar laba atau rugi (baik dalam pendapatan komprehensif lain maupun secara langsung di ekuitas), dalam hal tersebut pajak juga diakui di luar laba atau rugi.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable income will be available in future periods against which the deductible temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period in which the liability is settled or the asset realized, based on the tax rates (and tax laws) that have been enacted, or substantively enacted, by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when there is legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and current tax liabilities on a net basis.

Current and deferred tax are recognized as an expense or income in profit or loss, except when they relate to items that are recognized outside of profit or loss (whether in other comprehensive income or directly in equity), in which case the tax is also recognized outside of profit or loss.

**v. Laba per Saham**

Laba per saham dasar dihitung dengan membagi laba bersih diatribusikan kepada pemilik entitas induk dengan jumlah rata-rata tertimbang saham yang beredar pada periode yang bersangkutan.

Laba per saham dilusian dihitung dengan membagi laba bersih diatribusikan kepada pemilik entitas induk dengan jumlah rata-rata tertimbang saham biasa yang telah disesuaikan dengan dampak dari semua efek berpotensi saham biasa bersifat dilutif.

**w. Informasi Segmen**

Segmen operasi diidentifikasi berdasarkan laporan internal mengenai komponen dari Grup yang secara regular direview oleh "pengambil keputusan operasional" dalam rangka mengalokasikan sumber daya dan menilai kinerja segmen operasi.

Segmen operasi adalah suatu komponen dari entitas:

- a) yang terlibat dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain dari entitas yang sama);
- b) yang hasil operasinya dikaji ulang secara regular oleh pengambil keputusan operasional untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya; dan
- c) di mana tersedia informasi keuangan yang dapat dipisahkan.

Informasi yang digunakan oleh pengambil keputusan operasional dalam rangka alokasi sumber daya dan penilaian kinerja mereka terfokus pada kategori dari setiap produk, yang menyerupai informasi segmen usaha yang dilaporkan di periode sebelumnya.

Kebijakan akuntansi yang digunakan untuk menyiapkan informasi segmen adalah sama dengan asumsi yang digunakan dalam membuat laporan keuangan konsolidasian.

**v. Earnings per Share**

Basic earnings per share is computed by dividing net income attributable to owners of the Company by the weighted average number of shares outstanding during the period.

Diluted earnings per share is computed by dividing net income attributable to owners of the Company by the weighted average number of shares outstanding as adjusted for the effects of all dilutive potential ordinary shares.

**w. Segment Information**

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performances.

An operating segment is a component of an entity:

- a) that engages in business activities from which it may earn revenue and incur expenses (including revenue and expenses relating to the transaction with other components of the same entity);
- b) whose operating results are reviewed regularly by the entity's chief operating decision maker to make decision about resources to be allocated to the segments and assess its performance; and
- c) for which discrete financial information is available.

Information reported to the chief operating decision maker for the purpose of resource allocation and assessment of their performance is more specifically focused on the category of each product, which is similar to the business segment information reported in the prior periods.

The accounting policies used in preparing segment information are the same as those used in preparing the consolidated financial statements.

#### 4. PERTIMBANGAN KRITIS AKUNTANSI DAN ESTIMASI AKUNTANSI YANG SIGNIFIKAN

Dalam penerapan kebijakan akuntansi Grup, yang dijelaskan dalam Catatan 3, manajemen diwajibkan untuk membuat penilaian, estimasi dan asumsi tentang jumlah tercatat aset dan liabilitas yang tidak tersedia dari sumber lain. Estimasi dan asumsi yang terkait didasarkan pada pengalaman historis dan faktor-faktor lain yang dianggap relevan. Hasil aktualnya mungkin berbeda dari estimasi tersebut.

Estimasi dan asumsi yang mendasari ditelaah secara berkelanjutan. Revisi estimasi akuntansi diakui dalam periode yang perkiraan tersebut direvisi jika revisi hanya mempengaruhi periode itu, atau pada periode revisi dan periode masa depan jika revisi mempengaruhi kedua periode saat ini dan masa depan.

##### **Pertimbangan Kritis dalam Penerapan Kebijakan Akuntansi**

Dalam proses penerapan kebijakan akuntansi yang dijelaskan dalam Catatan 3, tidak terdapat pertimbangan kritis yang memiliki dampak signifikan pada jumlah yang diakui dalam laporan keuangan konsolidasian, selain dari penyajian perkiraan yang diatur di bawah ini.

##### **Sumber Estimasi Ketidakpastian**

Informasi tentang asumsi utama yang dibuat mengenai masa depan dan sumber utama dari estimasi ketidakpastian lain pada akhir periode pelaporan, yang memiliki risiko signifikan yang mengakibatkan penyesuaian material terhadap jumlah tercatat aset dan liabilitas dalam periode pelaporan berikutnya dijelaskan dibawah ini.

##### **Rugi Penurunan Nilai Pinjaman Diberikan dan Piutang**

Grup menilai penurunan pinjaman diberikan dan piutang pada setiap tanggal pelaporan. Dalam menentukan apakah rugi penurunan nilai harus dicatat dalam laporan laba rugi, manajemen membuat penilaian, apakah terdapat bukti objektif bahwa telah terjadi peristiwa kerugian (lihat Catatan 3g atas penurunan aset keuangan). Manajemen juga membuat penilaian atas metodologi dan asumsi untuk memperkirakan jumlah dan waktu arus kas masa depan yang diperiksa secara teratur untuk mengurangi perbedaan antara estimasi kerugian dan kerugian aktualnya. Nilai tercatat pinjaman diberikan dan piutang telah diungkapkan dalam Catatan 6, 7 dan 8.

#### 4. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

In the application of the Group accounting policies, which are described in Note 3, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

##### **Critical Judgments in Applying Accounting Policies**

In the process of applying the accounting policies described in Note 3, management has not made any critical judgment that has significant impact on the amounts recognized in the consolidated financial statements, apart from those involving estimates, which are dealt with below.

##### **Key Sources of Estimation Uncertainty**

The key assumptions concerning future and other key sources of estimation at the end of the reporting period, that have the significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

##### **Impairment Loss on Loans and Receivables**

The Group assesses its loans and receivables for impairment at each reporting date. In determining whether an impairment loss should be recorded in profit or loss, management makes judgment as to whether there is objective evidence that loss event has occurred (see Note 3g on impairment of financial assets). Management also makes judgment as to the methodology and assumptions for estimating the amount and timing of future cash flows which are reviewed regularly to reduce any difference between loss estimate and actual loss. The carrying amount of loans and receivables are disclosed in Notes 6, 7 and 8.

#### **Penurunan Nilai Persediaan**

Grup membuat penyisihan penurunan nilai persediaan berdasarkan estimasi persediaan pada masa mendatang. Walaupun asumsi yang digunakan dalam mengestimasi penurunan nilai persediaan telah sesuai dan wajar, namun perubahan signifikan atas asumsi ini akan berdampak material terhadap penyisihan penurunan nilai persediaan, yang pada akhirnya akan mempengaruhi hasil usaha Grup.

Berdasarkan pertimbangan manajemen, Grup membuat cadangan penurunan nilai persediaan sebesar Rp 1.536.347 ribu untuk tanggal 31 Desember 2012, Rp 839.006 ribu untuk tanggal 31 Desember 2011 dan Rp 602.909 ribu untuk tanggal 1 Januari 2011/31 Desember 2010.

#### **Taksiran Masa Manfaat Ekonomis Aset Tetap**

Masa manfaat setiap aset tetap Grup ditentukan berdasarkan kegunaan yang diharapkan dari penggunaan aset tersebut. Estimasi ini ditentukan berdasarkan evaluasi teknis internal dan pengalaman Perusahaan atas aset sejenis. Masa manfaat setiap aset direview secara periodik dan disesuaikan apabila prakiraan berbeda dengan estimasi sebelumnya karena keausan, keusangan teknis dan komersial, hukum atau keterbatasan lainnya atas pemakaian aset. Namun terdapat kemungkinan bahwa hasil operasi dimasa mendatang dapat dipengaruhi secara signifikan oleh perubahan atas jumlah serta periode pencatatan biaya yang diakibatkan karena perubahan faktor yang disebutkan di atas.

Nilai tercatat aset tetap diungkapkan dalam Catatan 11.

#### **Manfaat Karyawan**

Penentuan liabilitas imbalan kerja tergantung pada pemilihan asumsi tertentu yang digunakan oleh manajemen dalam menghitung jumlah liabilitas tersebut. Asumsi tersebut termasuk antara lain tingkat diskonto dan tingkat kenaikan gaji. Realisasi yang berbeda dari asumsi Grup diakumulasi dan diamortisasi selama periode mendatang dan akibatnya akan berpengaruh terhadap jumlah biaya serta liabilitas yang diakui di masa mendatang. Walaupun asumsi Grup dianggap tepat dan wajar, namun perubahan signifikan pada kenyataannya atau perubahan signifikan dalam asumsi yang digunakan dapat berpengaruh secara signifikan terhadap liabilitas imbalan kerja Grup.

#### **Allowance for Decline in Value of Inventories**

The Group provides allowance for decline in value of inventories based on estimated future usage of such inventories. While it is believed that the assumptions used in the estimation of the allowance for decline in value of inventories are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of the allowance for decline in value of inventories, which ultimately will impact the result of the Group's operations.

Based on the assessment of management, the Group provided allowance for decline in value of inventories of Rp 1,536,347 thousand as of December 31, 2012, Rp 839,006 thousand as of December 31, 2011 and Rp 602,909 thousand as of January 1, 2011/December 31, 2010.

#### **Estimated Useful Lives of Property and Equipment**

The useful life of each item of the Group's property and equipment are estimated based on the period over which the asset is expected to be available for use. Such estimation is based on internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above.

The aggregate carrying amount of property and equipment is disclosed in Note 11.

#### **Employee Benefits**

The determination of employee benefits obligation is dependent on selection of certain assumptions used by management in calculating such amounts. Those assumptions include among others, discount rate and rate of salary increase. Actual results that differ from the Group's assumptions are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded obligation in such future periods. While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Group's employee benefits obligations.

Rincian liabilitas imbalan kerja dan asumsi yang digunakan diungkapkan dalam Catatan 16.

Details of employee benefits obligation and the assumptions used are disclosed in Note 16.

#### **Penurunan Nilai Goodwill**

#### **Impairment of Goodwill**

Menentukan apakah suatu goodwill turun nilainya mengharuskan estimasi nilai pakai unit penghasil kas dimana goodwill dialokasikan. Perhitungan nilai pakai mengharuskan manajemen untuk mengestimasi arus kas masa depan yang diharapkan timbul dari unit penghasil kas yang menggunakan tingkat pertumbuhan yang tepat dan tingkat diskonto yang sesuai untuk perhitungan nilai kini.

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the management to estimate the future cash flows expected to arise from the cash-generating unit using an appropriate growth rate and a suitable discount rate in order to calculate present value.

Nilai tercatat goodwill pada akhir periode pelaporan telah diungkapkan di Catatan 32.

The carrying amount of goodwill at the end of the reporting period is disclosed in Note 32.

Jangka waktu rata-rata kredit penjualan barang dan jasa adalah 30 hingga 60 hari. Tidak ada bunga yang dikenakan terhadap piutang usaha. Grup mengakui cadangan kerugian penurunan nilai berdasarkan penilaian individu dan cadangan 100% atas seluruh piutang yang jatuh tempo lebih dari 720 hari berdasarkan penilaian kolektif karena berdasarkan pengalaman historis, piutang yang telah jatuh tempo melampaui 720 hari tidak terpulihkan. Cadangan kerugian penurunan nilai piutang diakui atas piutang usaha yang jatuh tempo antara 180 hari dan 720 hari berdasarkan jumlah estimasi yang tidak terpulihkan yang ditentukan dengan mengacu pada pengalaman masa lalu pihak lawan dan analisis posisi keuangan kini pihak lawan.

The average credit period on sales of goods and services rendered is 30 to 60 days. No interest is charged on trade receivables. The Group has recognized an allowance for impairment losses based on individual assessment and 100% against all receivables over 720 days under collective assessment because historical experience has been that receivables that are past due beyond 720 days are not recoverable. Allowance for impairment losses are recognized against trade receivables between 180 days and 720 days based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position.

Sebelum menerima setiap pelanggan baru, Grup menggunakan sistem penilaian kredit internal untuk menilai potensi kualitas kredit pelanggan dan menentukan batas kredit pelanggan. Batasan dan penilaian yang diatribusikan kepada pelanggan ditinjau setiap tahun. 90% dari piutang usaha baik yang tidak jatuh tempo atau yang tidak mengalami penurunan nilai merupakan piutang terhadap pelanggan yang memiliki kredibilitas tinggi. Dari saldo piutang usaha pada akhir tahun, sebesar Rp 21.541.922 ribu dan Rp 14.974.414 ribu merupakan piutang dari Singapore Airlines dan PT Padma Persada Nusantara, pelanggan terbesar Grup. Tidak ada pelanggan lain yang mewakili lebih dari 5% dari jumlah saldo piutang usaha.

Piutang usaha yang diungkapkan di atas termasuk jumlah (lihat di bawah untuk analisis umur) yang telah lewat jatuh tempo pada akhir periode pelaporan dimana Grup tidak mengakui cadangan kerugian penurunan nilai piutang karena belum ada perubahan yang signifikan dalam kualitas kredit dan jumlah piutang masih dapat dipulihkan. Grup memiliki beberapa jaminan dalam bentuk kas dan garansi bank dari pelanggan tertentu.

JAS mengajukan keberatan kepada Direktur Jenderal Pajak melalui beberapa surat keberatan karena JAS memiliki Peraturan Khusus (Private Ruling) No. S-1001/PJ5.1/1989, tanggal 12 Juli 1989 perihal penegasan dari Direktur Jenderal Pajak bahwa penyerahan jasa ground handling kepada perusahaan penerbangan internasional tidak dikenakan PPN, sepanjang tempat kedudukan perusahaan penerbangan tersebut memberikan pembebasan yang sama terhadap perusahaan penerbangan Indonesia (asas timbal balik). Namun, Direktur Jenderal Pajak telah menolak semua surat keberatan JAS melalui beberapa surat keputusan.

JAS submitted a tax objection to the General Director of Tax through several letters, as JAS has Private Ruling No. S-1001/PJ5.1/1989, dated July 12, 1989 regarding confirmation from General Director of Tax that there are no value added tax charges on ground handling services to international airlines as long as the country of domicile of the customer or the airline companies apply the same treatment (reciprocal principal) to the Indonesian airline companies. However, the General Director of Tax has rejected all JAS's tax objection letters through several tax decision letters.

Nilai wajar bersih kontrak tersebut dicatat sebagai aset (kewajiban) derivatif.

The net fair value of the contracts is recorded as derivative assets (liabilities).

Keuntungan (kerugian) yang terkait kontrak tersebut dicatat dalam pos keuangan dan lain-lain dan disajikan sebagai keuntungan (kerugian) bersih atas transaksi derivatif.

The related gains (losses) on these contracts were recorded in financial and other items and presented under net gain (losses) on derivative transactions.

Nilai wajar kontrak swap suku bunga dan kontrak berjangka mata uang asing dihitung menggunakan harga kuotasi. Bila harga tersebut tidak tersedia, analisa arus kas yang didiskonto dilakukan menggunakan kurva hasil yang diaplikasikan untuk periode instrument. Kontrak berjangka mata uang asing diukur menggunakan kurs mata uang asing yang dikuotasi dan kurva hasil yang didapat dari kuotasi kurs mata uang asing yang sesuai jatuh tempo kontrak. Swap suku bunga diukur pada nilai sekarang estimasi dan arus kas masa depan yang didiskonto berdasarkan kurva hasil dari kuotasi suku bunga yang dapat diaplikasikan.

The fair values of the above interest rate swaps and forward foreign exchange contracts are calculated using quoted prices. Where such prices are not available, discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments. Foreign currency forward contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

### 36. FINANCIAL INSTRUMENTS, FINANCIAL RISK AND CAPITAL RISK MANAGEMENT

#### a. Capital Risk Management

The Group manages capital risk to ensure that it will be able to continue as a going concern, in addition to maximizing the profits of the shareholders through the optimization of the balance of debt and equity. The Group's capital structure consists of cash and cash equivalents (Note 6), and equity of the parent consisting of capital stock (Note 17), additional paid-in capital (Note 19), retained earnings and non-controlling interest (Note 22).

Management periodically reviews the Group capital structure. As part of this review, management considers the cost of capital and related risk.

The gearing ratio as of December 31, 2012 and 2011 is as follows:

#### b. Financial risk, management objectives and policies

The Group's financial risk management and policies seek to ensure that adequate financial resources are available for operation and development of its business, while managing its exposure to currency, credit, interest and liquidity risks. The Group operates within defined guidelines that are approved by the Director.

##### (i) Credit risk management

The Group's credit risk is primarily attributed to its cash and cash equivalents, trade and other accounts receivable and loans to a related party.

Credit risk on cash and cash equivalents and financial derivatives is limited because the counterparties are with reputable financial institutions.

Jumlah yang disajikan di laporan posisi keuangan konsolidasian setelah dikurangi cadangan kerugian penurunan nilai, yang dibuat ketika kerugian teridentifikasi akan terjadi berdasarkan pengalaman sebelumnya, adalah bukti pengurangan atas arus kas dari piutang yang dapat diperoleh kembali, mewakili eksposur Grup terhadap risiko kredit.

Piutang usaha dan piutang lain-lain Grup hanya dilakukan dengan pihak ketiga dan pihak berelasi yang terpercaya dan layak. Semua transaksi dengan pihak ketiga harus mendapat persetujuan dari Direksi sebelum finalisasi kesepakatan. Batasan kredit (yaitu jumlah dan waktu kredit) harus ditetapkan untuk masing-masing pihak dan direview secara berkala oleh Direksi. Di samping itu, saldo piutang dimonitor secara berkelanjutan untuk mengurangi eksposur piutang bermasalah.

#### Kualitas kredit aset keuangan

Tabel berikut ini menunjukkan kualitas aset keuangan Grup:

The amounts presented on the consolidated statements of financial position, net of allowance for impairment losses, which is made when there is an identified loss event that based on previous experience, is evidence of a reduction of the recoverability of the cash flows of such receivables, represents the Group's exposure to credit risk.

The Group's trade and other accounts receivable are entered only with respected and credit worthy third parties and related parties. All third party transactions must obtain approval from the Directors prior to the finalization of the deal. Credit limits (i.e. the amount and timing of credit) are set to each party and reviewed periodically by the Directors. In addition, receivable balances are monitored on an on-going basis to reduce exposure to credit risk.

Kualitas kredit aset keuangan

Kualitas kredit aset keuangan Grup dinilai dan dikelola berdasarkan peringkat internal.

Kualitas kredit dimonitor dengan menggunakan Sistem Peringkat Grup. Sistem peringkat dinilai dan diperbarui secara berkala dan peringkat risiko debitur individual divalidasi untuk menjaga akurasi dan konsistensi peringkat risiko. Kualitas kredit dan Sistem Peringkat dinilai sebagai berikut:

- Tingkat tinggi

Seorang debitur diberi peringkat tingkat tinggi (current) jika memiliki *debt service capacity* yang sangat kuat. Debitur dengan peringkat tingkat tinggi dinilai dapat memiliki kualitas *outlook* kredit yang tinggi dalam segala kondisi ekonomi. Peringkat tingkat tinggi adalah peringkat tertinggi yang diberikan kepada debitur berdasarkan Sistem Peringkat Grup.

- Tingkat standar

Seorang debitur yang diberi peringkat standar (jatuh tempo 1 – 90 hari) adalah debitur yang dianggap memiliki *debt service capacity* yang kuat. Walaupun probabilitas gagal bayar rendah, debitur dengan peringkat tingkat standar dinilai lebih rentan terhadap efek yang merugikan perubahan kondisi ekonomi.

- Tingkat sub standard

Eksposur kredit bagi debitur diberi peringkat sub standar (jatuh tempo lebih dari 90 hari) adalah debitur yang untuk sementara waktu dianggap tidak berisiko tetapi kinerja debitur telah melemah dan, kecuali tren berubah, dapat menyebabkan kerugian.

Tabel di bawah ini menunjukkan kualitas kredit setiap kelompok aset keuangan yang belum jatuh tempo atau tidak mengalami penurunan nilai individual (tidak termasuk cadangan kerugian penurunan nilai)

Credit quality of financial asset

The credit quality of the Group's financial assets is assessed and managed using internal ratings.

The credit quality is monitored using the Group's Rating System. The rating system is assessed and updated regularly and individual borrower risk rating is validated to maintain accurate and consistent risk rating. The credit quality and the corresponding Rating System grade are as follows:

- High grade

A borrower is given a high grade rating (current) if it has an extremely strong debt service capacity. High grade borrowers are viewed to possess a high credit quality outlook under all economic conditions. High grade is the highest rating provided to a borrower under the Group's Rating System.

- Standard grade

A borrower given a standard grade rating (1-90 days past due) is deemed to have a strong debt service capacity. While the probability of default is low, standard grade borrowers are more susceptible to the adverse effects of changes in economic conditions.

- Sub-standard grade

Credit exposures for a borrower given a sub-standard grade rating (more than 90 days past due) is deemed to be not at risk for the moment but the borrower's performance has already weakened and unless present trends are reverse, could lead to losses.

The table below shows the credit quality per class of financial assets that are neither past due nor individually impaired (gross of allowance for impairment loss)

Manajemen berpendapat analisis sensitivitas tidak representatif terhadap risiko nilai tukar asing melekat karena tahun dan eksposur tidak mencerminkan eksposur tahun berjalan.

Kontrak valuta berjangka

Ini adalah kebijakan dari Grup untuk mengadakan kontrak valuta berjangka untuk melindungi pembayaran dan penerimaan mata uang asing tertentu.

Tabel berikut merinci kontrak valuta berjangka yang ada pada akhir periode pelaporan:

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the year and exposure does not reflect the exposure during the year.

Forward foreign exchange contracts

It is the policy of the Group to enter into forward foreign exchange contracts to cover specific foreign currency payments and receipts.

The following table details the forward foreign currency (FC) contracts outstanding at the end of the reporting period:

**(iv) Manajemen risiko tingkat suku bunga**

Eksposur risiko tingkat bunga berhubungan dengan jumlah aset atau liabilitas di mana pergerakan pada tingkat suku bunga dapat mempengaruhi laba setelah pajak. Risiko pada pendapatan bunga bersifat terbatas karena Grup hanya bermaksud untuk menjaga saldo kas yang cukup untuk memenuhi kebutuhan operasional. Dalam beban bunga, persetujuan dari Direksi dan Dewan Komisaris harus diperoleh sebelum Grup menggunakan instrumen keuangan tersebut untuk mengelola eksposur risiko suku bunga, dan jika dibutuhkan melakukan swap suku bunga untuk mengelola risiko suku bunga (Catatan 35).

Liabilitas keuangan yang terekspos terhadap resiko suku bunga disertakan dalam table resiko likuiditas di atas.

Tabel tersebut menunjukkan rincian sensitivitas laba setelah pajak Grup terhadap perubahan tingkat suku bunga. Analisis disusun dengan menggunakan asumsi atas saldo instrumen keuangan dengan bunga mengambang pada tanggal pelaporan telah beredar sepanjang tahun. Basis poin kenaikan dan penurunan menunjukkan penilaian manajemen atas perubahan yang mungkin terjadi atas suku bunga yang relevan setelah mempertimbangkan kondisi ekonomi saat ini.

**(iv) Interest rate risk management**

The interest rate risk exposure relates to the amount of assets or liabilities which is subject to a risk that a movement in interest rates will adversely affect the income after tax. The risk on interest income is limited as the Group only intends to keep sufficient cash balances to meet operational needs. On interest expenses, approvals from the Board of Directors and Commissioners must be obtained before committing the Group to any of the instruments to manage the interest rate risk exposure, and where necessary enter into interest rate swap to manage interest rate risk (Note 35).

The financial liabilities that are exposed to interest rate risk are included in the liquidity and interest rate risk table above.

The following table details the sensitivity of the Group's profit to changes in interest rate. The analysis is prepared assuming the amount of floating-rate financial instruments outstanding at the reporting date was outstanding for the whole year. The basis point increase and decrease represents the management's assessment of the reasonably possible change in the relevant interest rates after considering the current economic conditions.

**c. Nilai Wajar Instrumen Keuangan**

Jumlah tercatat aset keuangan dan liabilitas keuangan yang diakui di laporan keuangan konsolidasian mendekati nilai wajarnya karena jatuh tempo dalam jangka pendek sementara yang jatuh tempo lebih dari satu tahun memiliki suku bunga pasar variabel.

**c. Fair Value of Financial Instruments**

The carrying amounts of financial assets and financial liabilities recognized in the consolidated financial statements approximate fair value because of their short-term maturity while those with term of more than one year carry variable market rate of interest.

Tabel di bawah ini menyajikan analisis instrumen keuangan yang setelah pengakuan awal diukur pada nilai wajar, dikelompokkan dalam Tingkat 1 sampai 3 berdasarkan tingkat nilai wajar yang dapat diobservasi.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Tingkat 1: nilai wajar diperoleh dari kuotasi harga pasar aktif (unadjusted) di pasar aktif untuk aset atau liabilitas keuangan yang identik;
- Tingkat 2: pengukuran nilai wajar diperoleh dari input selain dari kuotasi harga pasar yang termasuk dalam Tingkat 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung (seperti harga) maupun tidak langsung (diperoleh dari harga);
- Tingkat 3: pengukuran nilai wajar diperoleh dari teknik valuasi yang di dalamnya terdapat input untuk aset dan liabilitas yang tidak didasarkan pada data yang dapat diobservasi di pasar (input yang tidak dapat diobservasi)

- Level 1: fair values derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: fair value measurements derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3: fair value measurements derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
